

VR300

VOLTAGE SENSITIVE RELAY

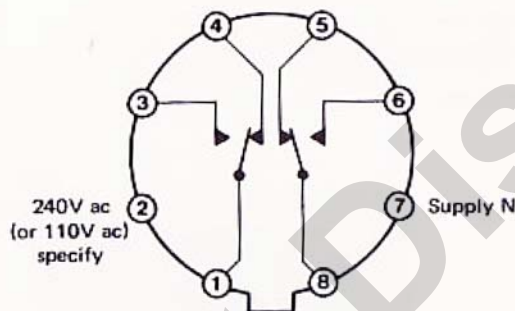

A voltage sensitive relay in a plug-in octal base with a preset voltage setting.

The accuracy is $\pm 10\%$ and the Ambient Temperature range is -10°C to $+55^{\circ}\text{C}$
Single Pole change over, gold-plated contacts rated at 200 V A (250 Vac or 3A max.).

The relay energises when the applied voltage exceeds setting and de-energises when the voltage falls to approximately 20% nominal.

Nominal Supply 230 Vac with setting $130\text{V} \pm 10\%$.

Nominal Supply 110 Vac with setting $70\text{V} \pm 10\%$.

When ordering
specify nominal supply

Dimensions:
50 mm x 50 mm x 80 mm
height from top of base
