

In order to consistently bring you the highest quality, full featured products, we reserve the right to change our specifications and designs at any time. The latest version of this manual can be found at [enovationcontrols.com](http://enovationcontrols.com).

**Warranty** - A limited warranty on materials and workmanship is given with this Murphy product. A copy of the warranty may be viewed or printed by going to [www.enovationcontrols.com/warranty](http://www.enovationcontrols.com/warranty)

**BEFORE BEGINNING INSTALLATION OF THIS MURPHY PRODUCT:**

- Read and follow all installation instructions.
- Visually inspect this product before installation for any damage during shipping.
- Disconnect all electrical power to the machine. Failure to do this before welding can result in damage to the panel and/or its components.
- It is your responsibility to have a qualified technician install the unit and make sure the installation conforms to local codes including but not limited to double insulation and fire containment.
- Observe all Warnings and Cautions in each section of these instructions.
- The CXM-110 is designed for use in industrial environments for monitoring and control which include engine driven pumps, compressors, grinders, chippers, & rock crushers. Potential difficulties may exist when ensuring electromagnetic compatibility in other environments due to conducted as well as radiated disturbances.

Contact Enovation Controls Technical Service if you have any questions or concerns at: +1 918-317-4100.

**IMPORTANT!** Improper use and operation of electronic products can be dangerous. It is required that point-of-operation guarding devices be installed and maintained. All such devices must meet OSHA and ANSI Machine safety standards. The manufacturer shall not accept any responsibility for installation, application, or safety of systems.

## Hardware Installation

The following instructions will guide you through installing the CXM-110 display.

### Inspecting Package Contents

---

Before attempting to install the product, it is recommended that you ensure all parts are accounted for and inspect each item for damage (which sometimes occurs during shipping). The items included in the box are:

CXM-110 Controller kit – P/N 40700489 includes:

- CXM-110 Controller
- P/N 00-02-0921 CXM-110 Installation Manual

### Tools Needed

---

Use an 11/64 drill bit to make the approximately sized 0.0170” mounting holes.

## Installation

---

### Preparing the Enclosed Panel

Determine the location of the CXM-110 on the customer-supplied flat or enclosed panel. The suitability of the enclosure is subject to investigation by the local authority having jurisdiction at the time of the installation.

Use the Installation Template measurements (included at the end of the manual). Drill holes where indicated on the template for the mounting screws. Please read **IMPORTANT** note below:

**IMPORTANT:** When using the paper template from the manual, please be aware that the drawing is not represented to scale. The measurements provided are accurate, and should be referred to when preparing the placement of the unit.

Recommended torque for tightening the mounting screws is 7.5-inch pounds. Although not required, only Blue polycarbonate compatible thread lock should be used for the CXM-110 mounting screws if thread lock is desired.

Install the CXM-110 controller on the front side of the panel and install the four mounting screws and lock washers. Plan the CXM-110 mounting for easy wiring and access.

30	LS_1A_OUT_2	60	Not used	90	HS_5V_OUT_2

Wiring of this device must meet all applicable electrical codes.

Battery lines to the unit must all come through a single 10 Amp or less fuse or circuit breaker.

## Connector

---

## **Accessories**

No accessories available at this time.

# Specifications

<b>PRODUCT SPECIFICATIONS</b>	
<b>Electrical</b>	
Microprocessor	Texas Instruments LM3S9D92, 32-bit ARM Cortex-M3, 80MHz, 512KB flash
Operating Voltage	8V ~ 32V, protected against reverse battery and load dump
Power Consumption	18W Max without 2 2A High-sides active, 146W Max with 2 2A High-sides active
Communications	
2- CAN	J1939
USB	2.0B (Not in Primeguard 2 initial release)
Ethernet	(Not in Primeguard 2 initial release)
RS485	Modbus RTU
Connection	FCI-like, SICMA 90 way connector, 1.5mm
Inputs	
6- Digital Inputs	high/ low
8- Analog Inputs	configurable (4-20mA, 0-5V, resistive)
1- Frequency Input	supporting Magnetic Pickup (2 Hz - 10KHz, 3.6 VAC - 120 VAC)
Outputs	
6- Relays	10A, SPDT, Form C (30VDC @ 10A or 125VAC @ 10A max.), 40A maximum aggregate @ 85C
2- Low-side Outputs	1A
2- High-side Outputs	2A
2- 5V Outputs	200mA (to drive external relays)
1- Analog Output	0-5V
Real-time Clock	included with battery back-up
<b>Environmental</b>	
Operating Temperature	-40C ~ 85C
Storage Temperature	-40C ~ 85C
Protection	IP67
Emissions	SAE J1113
Immunity	SAE J1113
Vibration	Random Vibration, 7.86 Grms (5-2000 Hz), 3 axis
Shock	.,+/- 50G in axis
<b>Mechanical</b>	
Case Material	PC/ABS
